CRITERIA FOR FELLOWS AND MEMBERS

MEMBERSHIP AND FELLOWSHIP BY ELECTION

Medically qualified practitioners may be considered for admission as a Member by Election providing that the FSEM(UK) Council is satisfied that he/she has passed an examination which Council has agreed is equivalent to the Diploma and has satisfactorily completed Basic Specialist Training or training which Council considers to be equivalent.

Medically qualified practitioners who are judged by Council to have made a significant contribution to Sport and Exercise Medicine either in the United Kingdom or abroad may be elected as a Fellow by Election.

FELLOW

- The applicant should be able to demonstrate a minimum of the equivalent of 5 years full time experience in Sport and Exercise Medicine (SEM).
- The applicant should have completed either a diploma or MSc in SEM
- The applicant should be able to demonstrate ongoing regular attendance at SEM-related CPD and ideally membership of BASEM, unless the applicant resides out of the UK, in which case membership of an equivalent organisation would be acceptable.
- The applicant should be able to demonstrate that during the period of time in the specialty they have made a significant contribution to service delivery, education or development of infrastructure within the Specialty of SEM, and in the case of service delivery should have significant experience of direct involvement with more than one sport.

In the case of service delivery this would involve seeing a minimum of 50% sport or exercise related work within their typical working week and the remainder of work being in a related field. In the case of education this would involve a regular commitment to teaching rather than sessional or occasional work and teaching should be to those training in the field of SEM rather than to doctors whose main area of interest is outside the specialty. In the case of development of infrastructure, the applicant should be fundamentally involved in the workings of a major SEM body such as the Faculty, the EIS, UKSport, the Olympic Medical Institute etc.

Those who have an interest in SEM but who are full time specialists in another area, e.g. orthopaedic surgery, radiology, accident and emergency, would usually be offered membership.

On application, Fellowship will normally be awarded to those who have a CST or CSR in SEM and who are in good standing with the GMC.

- 2010 Fees £280.00
- Designation **FFSEM(UK)**
- Full Voting Rights

The Faculty of Sport and Exercise Medicine (UK)

The Intercollegiate Faculty of Sport and Exercise Medicine

Patron: HRH The Princess Royal

MEMBER

- The applicant should have completed either a diploma or MSc in SEM and be in good standing with the GMC.
- The applicant should be able to demonstrate regular SEM practice from week to week over a period of 2 years or more– this excludes work in related specialties unless this is part of a SEM training rotation
- The applicant should be able to demonstrate an ongoing commitment to CPD in the specialty and ideally membership of BASEM, unless resident outside the UK in which case an equivalent organisation would be accepted.
- The applicant should be able to demonstrate that they have access to mentorship or the support of colleagues within the specialty so that their practice is not isolated.
- If the applicant is involved in pitchside/teamcare, this should ideally involve more than one sport although allowance can be made where one sport (e.g. a professional sport) requires a large time commitment.
- 2010 Fees £220.00
- Designation **MFSEM(UK)**
- Full Voting Rights.
